the way, ex-Alderman John M. King of Jefferson Ward, charged and convicted in the Police Court with having received a bribe while a member of a former Council Street Committee, will be tried next Tuesday in the Hustings Court on an appeal taken from the decision of Justice Crutchfield. He seems confident will be watched with interest

of Manchester, will preside over the trial in the place of Judge Witt, who is still confined to his home. Commonwealth's Attorney David C. Richardson, probably assisted by City Attorney Pollard, will push the prosecution, while Messrs. Hill Carler and Wyndham R. Meredith will represent the defendant.

A NEW JURY.

Judge Ingram ordered last Friday afternoon that a new jury be impaneled, and yesterday the court deputies were busily engaged in pushing this work. As a result, it is probable that Mr. King's guilt or innocence will be passed upon by twelve men who have not before occupied the chair of a juror in the Hustings Court this year.

The reason for ordering that a new jury be drawn is apparant. The old panel, all of whom have been doing duty since court convened this term, pleaded one after another the expiration of their ten days' service, asking to be excused. This depleted the panel so materially that Friday afternoon Judge Ingram discharged the entire panel, ordering that another be drawn.

Since the conviction of Mr. King in the Police Court several months ago, the appeal of his case has gone over from time to time, first on one account and then on another. For two or three months continuances were asked by the defense and granted by the judge, on

from time to time, first on one account and then on another. For two or three months continuances were asked by the defense and granted by the judge, on account of the inability of City Engineer Cutshaw to be present.

INDICTMENT REMEDIED.

When the case was last called it was postponed on account of a flaw in the indictment, but this has now been remedled, and it looks very much as if the case will be gone into.

Although Commonwealth's Attorney Richardson feels confident of securing a second conviction, there are several persistent rumors adioat to the effect that new and startling evidence for the defense will be sprung. The nature of this is not known, but it is supposed that the defense will confine its efforts to an attempt to impeach certain of the State's strongest testimony.

the writers intention to give a history of its industries and improvement in the last decade.

Within the last few years many new industries have sprung into existence, od ones have been enlarged and improved in every respect and modern business methods adopted. At the opening of the year 1890 there was not a bank in any county in the Northern Neck; now there are four prosperous banks here, situated at the following places: Reedville, North-umberland county; Warsaw, Richmod county; Kilmarnock, and irvington, Lancaster county, and a fifth one nearing completion at Montross, Westmoreland county; all of these are doing a flourishing business.

Ten years ago there were probably net more than three or four canneries and even fewer oyster shucking establishments and fish-packing houses in these counties. The growth and development of these industries have been simply wooderful; to-day every cross-road has its toma to cannery, which has an immense output and many thousands of gullons of oysters are daily shipped from our waters.

The menhaden fisheries which only a few years ago were conducted on a small scale, and in temporary siructures, with old machinery and slow sailing vessels have been wonderfully changed. Now there are numerous factories engaged in catching menhaden, and in the manufacture of oll and fish fertilizer, located on

solid machinery and slow sailing vessels have been wenderfully changed. Now there are numerous factories engaged in catching menhaden, and in the manufacture of oil and fish fertilizer, located on the shore of the Chesapeake Bay and its tributaries, representing many thousand dollars of capital, owning numberless swift and well equipped steamers, employing thousands of sailors and laborers. In nothing has there been greater advancement than in trucking, the capacity of the large steamers daily plying the Potomac and Rappahannock Rivers often being unable to transport to the market the fruits and trucks, which are being raised in larger quantities every vear. The past year has seen more improvements than any other in the listory of our favored counties.

All along our water coast many new enterprises have sprung into existence and new towns are rapidly being built. A few months ago "Pleasant Bank" farm, situated near the mouth of the Rappahannock, in Lancaster county, and containing over four hundred acres of land, was purchised by Messrs. J. B. Cralle, Wilbur Jaines ad Dr. B. H. B. Hubbard, and is now being transformed into a live and thrifty business center. Its name is White Stone, and is but a short distance south of the progressive village of that name. The part of the farm, which is situated immediately on the river, has been laid out into town lots, which have been sold at good prices and handsome dwellings are being rapidly erected. A substantial wharf and warehouse, and a large store and express office were erected by the owners of the property. Elsner Bros., of Maryland, operated a large tomato cannery here as season, putting up many thousands of cases. A large oyster shucking business is being conducted by Charles Newbert, of Baltimore, and a saw-mill is being run by M. P. Jones, This place is situated in the very center of the oyster industry and that it will continue to grow and flourish is undoubted. The beach is beautiful and bathing excellent, and it is believed that the place will soon become po

Northumberland county, and jutting out into the Chesapeake Bay is a beautiful and clevated promontory known as Fleet's Point. It contains about a hundred acres of land, is but a few miles distant from the thrifty and flourishing town of Reedville, which is situated on the same stream. The property is owned by J. B. Hinten, William Blundon, I. M. Bussells and John A. Palmer, Jr. The location is undoubtedly a beautiful one and its owners not only intend to develop its business resources, but to make it an ideal summer resort and watering place. A large hotel with modern improvements is to be erected and the entire point laid off in town lots, the whole to be lit up by electricity. A substantial wharf has been constructed, to which the Baltimore steamers make daily visits; a store has been built and other business houses will soon be erected here. It is not fur from Christicld, Md., and could easily be connected by a line of steamers. There is no doubt of the success of this place.

Two newspapers have been started in the Northern Neck this year: The Progress, at Hague, Westmoreland county, and The Echo, at Heathsville, Northumberland county.

John Jones Refused to Agree to Compromising Verdict.

(Special to The Times-Disnatch.)

TAZEWISLL, VA., February 21.—It is rumored here, and seems to be an almost certain fact, that the Bank of Clinch Valley has purchased the property on Main Street, owned by Surface and Hopkins, and now occupied as a clothing store by Messrs. W. T. Witten & Company, and will convert the same into a handsome banking building. It is a corner building and will make a very suitable banking establishment.

There was an effort on the part of counsel for the defense and the Commonwealth in the case of John Jones, to be tried a second time for the killing of John G. Watts, ex-marshal, to have an agreed verdict and let the prisoner take one year in the penitentary, but the prisoner is so confident of his innocence that he objected to such a verdict and will stand trial next Monday. He was convicted several months ago, together with his brother, George Jones, and sentenced to ten years in the penitentiary. The verdict was set aside by the Court of Appeals, and George Jones, and sentenced to ten years in the penitentiary, where he is now serving his time. John Jones, the brother, was immediately balled upon this verdict against his brother, it will be recalled that William Jones, the father, tried with his two sons on the first trial, was acquitted, the charge having been of a conspiracy on the part of the three Jonese to kill Mr. Watts. The charge was unsupported by the evidence, and the woons were placed upon trial separately.

# ASSISTANT CITY ENGINEER OF LOUISVILLE, KY., SUFFERED FOR YEARS WITH CATARRH OF THE HEAD. PE-RU-NA. SAVED

Charles C. Roe, Assistant City Engineer, Louisville, Ky., writes:
"Peruna has a large number of admirers in this part of Kentucky, but none more honest than myself for what it has done for me.
"I was troubled for some years with catarrh of the head and throat, which was often a serious annoyance to me and must have been to my friends. Nine bottles of Peruna cured me and built me up. It seemed to strengthen the nervous system, regulate digestion and drive away the headache, besides curing the catarrh.
"I have never known of any medicine which seemed to go through the entire system and do so much good." source, to eradicate it permanently from the system—this has been the desire of the medical profession for a long time. Forty years ago Dr. Hartman confronted this problem. He believed then that he had solved it. He still believes that he has solved it. He cures thousands of people annually. During all these years Peruna has been the remedy upon which he has relied.

It was at first a private prescription, afterwards manufactured expressly for him in large quantities. This remedy, Peruna, is now to be found in every drug store and nearly every home in the land. It is the only reliable internal remedy ever devised to cure any case of catarrh, however long the case may have been standing.

Mr. Camilius Sanne, No. 257 West 129th. CHARLES C ROE.

CATARRH of the head, nose and throat is very frequent. These victims crowd the offices of catarrh specialists in vain. Mr. Charles C. Roe once belonged to this unhappy class. A course of Peruna entirely cured him.

There are two things that the whole medical profession agree about concerning catarrh. The first is that catarrh is the most prevalent and omnipresent disease to which the people in the United States are subject. All classes of people have it. Those who stay indoors much and those who go outdoors much. Working classes have it and sedentary classes. ing classes have it and sedentary classes have it.

The doctor finds catarrh to be his con-stant and ever-present foe. It compli-cates nearly ever disease he is talled upon to treat.

The second thing about catarrir on which copt to give temporary relief. Catarrh is frequently located in internal organs which cannot be reached by any sort of local treatment. All this is

tnown by every physician.

# GIRLS DRILLING

An Inspiring Scene on Yesterday Afternoon at the Executive Mansion-

The big parlors of the Executive Mansion were filled with the music of girlish laughter and alive with the movement of twenty-four of the prettiest society girls in the city last afternoon, when the third rehearsal of the military drill, to be given at the Confederate fair, for the Home for Needy Confederate Wo men, which will open March 16th, in the Masonio Temple, went forward under the

inspection of Colonel Jo Lane Stern.

Miss Mabel Sims struck the inspiring notes of the march on the plane, and the young soldiers fell into line, wheeled by fours, shouldered and carried arms with an attention to business that was edifying to behold.

A lookeron was saw and admired them.

and are said to be exceeted in econception and promise. The floard of Managers and the other ladies who are helping Mrs Montague in the effort she is making for the Confederate Women's Home feel much encouraged over the untonne of their work, and believe they will realize a good sum for the cause they have r heart.
